**Tools Required**

- (1) Pneumatic Driver Gun
- (1) Robertson Bit
- (1) Hex Bit

**Hardware Included**

- (5) 1/4-20 x 1 3/4" Socket Head Cap Bolts
- (5) 1/4-20 x 3/4" Button Socket Cap Bolts
- (8) 1/4-20 x 5/8" Rod Bolts

---

1. Peel back protective polyfoam on both column and base.

2. Both ends of the column are the same.

3. Line up the holes and assemble using the five 1/4-20 x 1 3/4" socket head cap bolts and lock washers.

4. Tighten bolts using a staggered procedure until all of the bolts are tight.

5. Assemble the mounting plate to the column. The corner of the plate must line up with the leg.

6. Use five 1/4-20 x 3/4" button socket cap bolts in a staggered procedure until all of the bolts are tight.
